

## EXPERIENCE THE PREMIUM DIFFERENCE WITH THE TRUE GREEN CLOSED CELL SPRAY FOAM

ECOTIF2000 is an environmental benign 2.0 lb closed cell polyurethane spray foam system ideal for residential and commercial applications resulting in dramatic reduction in heating and cooling costs with an added structural strength.

R-value\*  $\approx$  4.7 @ 100mm  
Density  $\approx$  2.0 lb/ft<sup>3</sup>

ECOTIF2000 is 100% 1:1 water blown closed cell polyurethane spray foam system. It is far superior than traditional insulation materials providing exceptional insulation value, eliminating air leakage and dramatically reducing heating and cooling costs. ECOTIF2000's proprietary closed cell formula has been designed and tested to provide our customers with the best possible thermal and structural performance.

- Completely blocks pollutants, dust and allergens
- Ideal for commercial and high-end residential environments
- Improves structural strength
- It has a higher R-value and better performance than traditional insulation because it stops air leaks that can reduce R-values by 25-40%.
- It expands and fills every space and crack preventing conditioned air to leak out and unconditioned air to leak in
